

GET OUT AND FISH

Why are we here? To help encourage today's youth with healthy habits to enjoy and appreciate what the outdoors has to offer for a lifetime of enjoyment.

Our mission is simple... to encourage
the Youth of Wisconsin to
GET OUT AND FISH!

Encouraging Goal Setting | Gets Kids Outside
Promoting Independence

Get Out and Fish, Inc. was started with the goal to empower the Youth of Wisconsin through the sport of fishing. We believe that fishing helps strengthen bonds with nature as well as our communities. We are in the midst of technological era where it has become very easy to for kids to be overly involved with electronics and video games.

Get Out and Fish has three main goals

Motivate and incentivize the Youth to Get Out and Fish

We do this through friendly Tournaments, Competitions and Contests....ALL FREE!!!

Provide the tools to those that may not have the availability of others so they can fish too

We do this with Giveaways of donated fishing goods and items

Make resources easy to find so that we can all enjoy fishing

We supply information on our website about places to look for those trying to catch that big one!

Get Out and Fish aims to continue the DCYFT for the youth of Dane County. Anglers ages 9-15 are an underserved population and this tournament gives them an activity appropriate for their skill levels. It encourages independence, competition, sportsmanship, and camaraderie.

In the future Get Out and Fish aims to provide a variety of events for a wide range of ages. Our goal will always remain to get the kids outdoors, encourage those healthy passions and help them develop skills and hobbies that will last a lifetime.

participate for FREE!

The First Annual (2020) Dane County Youth Fishing Tournament (DCYFT) was wildly successful!

This tournament is intended for the independent youth angler. These kids typically fish on their own in their respective communities. Mom and Dad can not bait the hook etc etc etc. Mom and Dad may assist in fish documentation as needed. (not all kids have phones)
