**NEW SITES WANTED FOR
STATE-OF-THE-ART SOCCER FACILITY**

goals

ALL WE NEED IS LAND.

Goals would like to initially invest around \$3 – 4 million in your city to provide a state-of-the-art, all-weather, 5v5 and 7v7 soccer facility. As well as creating new sports facilities, we will also provide modern restrooms and refreshment facilities. All we need is land.

New Locations Wanted: Site Requirements

- We are looking for well located, highly visible and easily accessible land of around 3 acres to accommodate a clubhouse and around 10 small-sided soccer fields
- Parking for 100 cars
- Zoning to allow outdoor recreational centers

The entire development and operational costs are covered by Goals.

Also, the center employs dozens of full and part-time employees and attracts thousands of visitors to the community from outside the area on an annual basis, generating additional sales tax revenue for the community through purchases of food, drinks, and lodging at local businesses.

Why Build A Goals in Your City?

Your city has a long and well established reputation for providing sporting opportunities to its residents. The proposed Goals facility will further enhance this reputation and will become a focus for soccer participation and development in the local area. Goals funds, builds, manages and maintains all facilities. This includes daily cleaning by our staff, regular field maintenance, and painting of the interior and exterior to maintain the facilities at an exceptional level. Approximately 50% of the use can be made available free to City community groups. The fields can also be used for alternative sports such as: flag football, mini field hockey and dodgeball.

About Goals

We are the largest small-sided soccer (5v5 & 7v7) provider in the world. Small-sided soccer has become the fastest growing form of the game. It allows for more individual ball time and continuous play at a fast and exciting pace. The objective is the same as the traditional game: to put the ball in the back of your opponent's goal!

We have 46 state-of-the-art Football Association accredited clubs in the U.K. and four in the U.S. We develop and operate facilities through private, City and School facilities. In June 2017, Goals U.S. signed a 50/50 joint venture deal with City Football Group (owners of Manchester City Football Club). With this partnership, we have established the Manchester City Soccer Academy at all locations. It is a successful soccer coaching program, for players of all ages and abilities based on the coaching philosophy and methodology of Manchester City.
