LABORATORY TESTING SERVICES

## Research Laboratory Services

KMI Diagnostics Laboratory Testing Services is a CLIA certified diagnostic laboratory offering contractual research testing services to investigators in both university and industrial settings.

Our expert staff ranges from pathologists to technicians with over 20 years of bench experience. We offer accurate research data on a timely basis.

If you need a reliable laboratory for **overflow testing**, or for that **small pilot study** that has never made it to the top of your list, please contact us to explore the innovative ways that we can help you meet your goals.

- Customized assay design to fit your specific needs
- Complete raw data files provided to submitters
- Submitter participation in assay QC review
- Large or small projects
- Confidentiality assured
- Fast turn-around time
- Species-compatible assays available

Contact us toll-free at **1-888-564-3424**

We'll discuss your needs and answer all your questions.
