

DID YOU KNOW THERE'S A WAY TO REDUCE WASTED TIME IN YOUR CLINIC IMMEDIATELY?

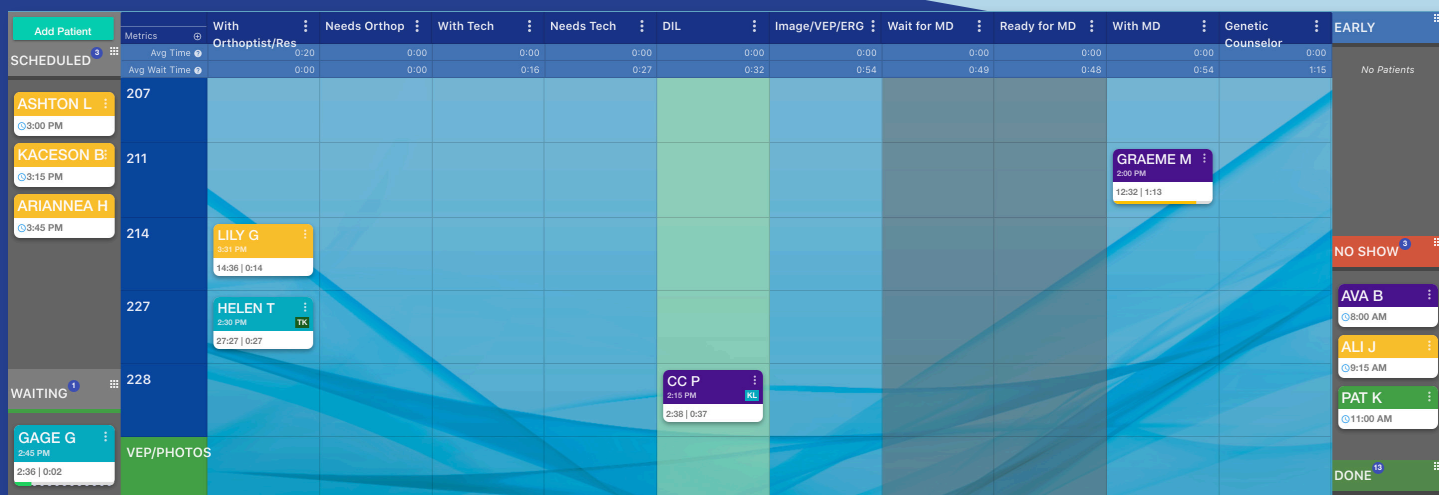

Introducing eSynchrony, the solution for:

- Reducing patient wait times
- Optimizing schedules / templates
- Increasing efficiencies

CATEGORY	UNIT	BEFORE	AFTER	PERCENT IMPROVEMENT
Patient Visit Lengths	Minutes	120	75	37.5%
Patient Access	Number of Patients	26	32	15%
Clinic End Times	Last Patient Leaves	5:45 PM	4:45 PM	12.5%

“This tool has single-handedly allowed me to change the outcome of my clinic day and has been a game changer in my clinics. One glance gives me a snapshot of my entire clinic in live time.”

- Yasmin S. Bradfield, MD

As a healthcare provider and practice owner, you know how important it is to have satisfied patients with no unnecessary wait time during their visit. eSynchrony is a HIPAA-compliant electronic whiteboard that allows users to track real-time patient status, wait times and clinic-flow data. This data is used to create a culture focused on continuously improving the experience of all the stakeholders – the patients, staff and providers.

Visit www.flowone.com or call (412) 612-0500 to learn more about eSynchrony.
